SDG 13: Climate Action
Did you know that the last decade was the warmest on record? Hot temperatures can cause wildfires that put animals and people in danger. Extreme weather phenomena, like hurricanes and droughts can damage people's homes and force them to move. In 2018, more than 40 million people all over the world were in danger of losing their homes. That's a really big number!

This Child, Every Child
This Child, Every Child is a unique book containing statistics and stories about children around the world today. This compilation of stories and facts encourages kids to broaden their horizons as it provides a glimpse into the lives of fellow children living under various circumstances. While some kids are able to attend school and have enough to eat every day, others are not so fortunate. With beautiful illustrations and a powerful message, This Child, Every Child aims to raise awareness about existing disparities around the world and the struggles that different children have to face. The book inspires children to strive for a more inclusive and equitable world for future generations.

A Home of Our Own
This heartwarming book follows the adventures of Sunehri and her friends as they play "house," a classic game that has been enjoyed by children everywhere. The children in the story do not have a real house, so they create a pretend house out of the items they find across the city. Through their joyful, make-believe game, we get a glimpse of the harsh reality the kids live in. This book inspires children to broaden their perspective, as they are made aware of the inequalities that different children around the world face.
