

Financial Support Opportunity for IFLA Members

IFLA's Strategic Programmes

IFLA's Strategic Programmes enable the continuation of our goals through Key Initiatives that focus on areas of significance to our members and library users. These bring together the work of our advocacy, our professional units including our Strategic Programmes CLM, FAIFE, LDP, PAC and UNIMARC, and our work with strategic partners. Members are welcome to assist these programmes through providing financial support. The current programmes are:

1. Libraries in society – positioning libraries as community assets and highlighting access to information as vital to sustainable development
2. Information and knowledge – advocating for libraries providing public access to the internet supported by an equitable copyright framework allowing them to act as catalysts of innovation;
3. Capacity building– strengthening the ability of members to advocate effectively for libraries as key players in political, economic and social change;
4. Cultural heritage– safeguarding documentary cultural heritage in its diverse forms;
5. Promoting reading and literacy as an essential requirement for active participation in access to information in any format.

Yes, I would like to support IFLA's Strategic Programmes

The amount of my financial support is **EUR** _____

Name/Association/Institution _____

My membership code is _____ Email address: _____
