

Landscape of Data Structure and Exchange Standards Survey

PUC – Future of UNIMARC

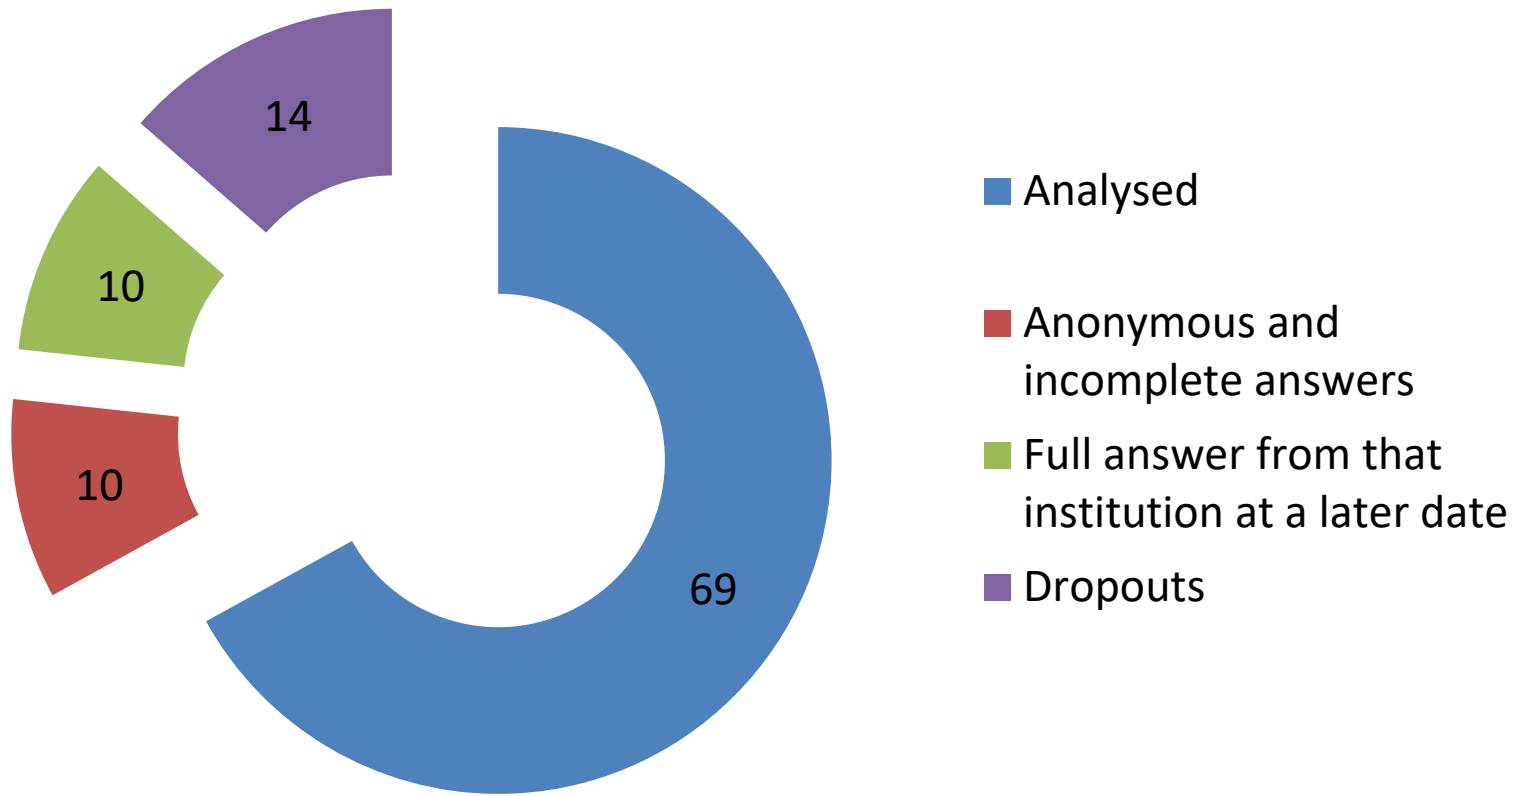

UNIMARC Users' Meeting – Maribor, November 12th, 2024

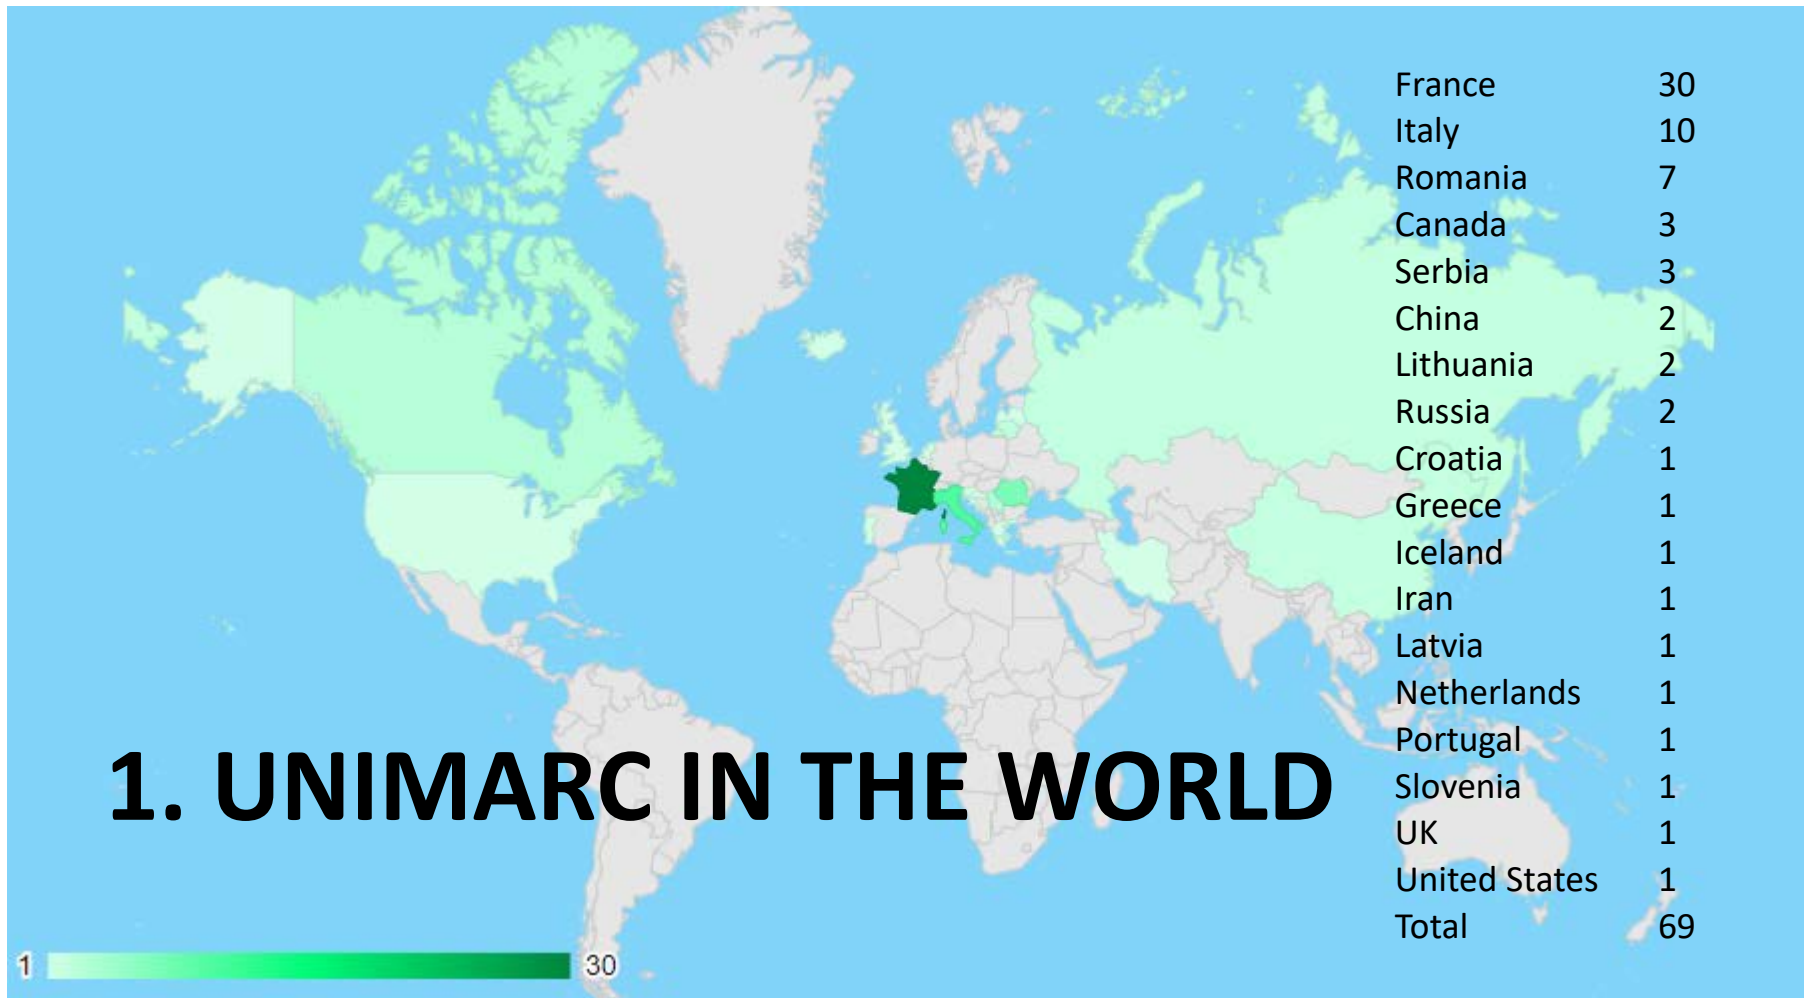

Context of the survey

- UNIMARC has undergone a major transformation in the past few years, adopting IFLA's new entity-relationship (ER) cataloguing model, **IFLA LRM**.
- In order to better understand the needs of the library community and to facilitate the exchange of knowledge and ideas, the Permanent UNIMARC Committee has launched the **"Future of UNIMARC" project in 2023**.
- A **survey took place from mid April to mid-July 2024**, in order to better understand the needs and practices of users, and to shape the format's next roadmap.
- Questions focused on the **use of content standards and formats** in library systems, as well as on UNIMARC users' **needs and projects** for the future, in general and more specifically concerning the new ER standards.

Participation

103 participants, 69 full responses analysed

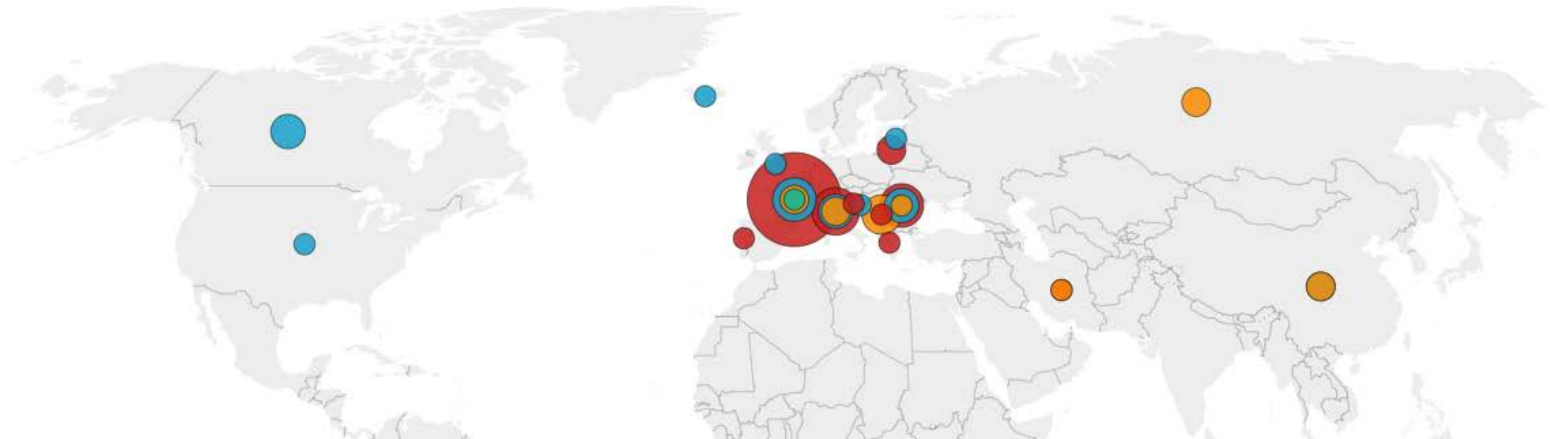

1. UNIMARC IN THE WORLD

WHERE IS UNIMARC USED ?

PARTICIPATING COUNTRIES BY NUMBER OF SURVEY ANSWERS

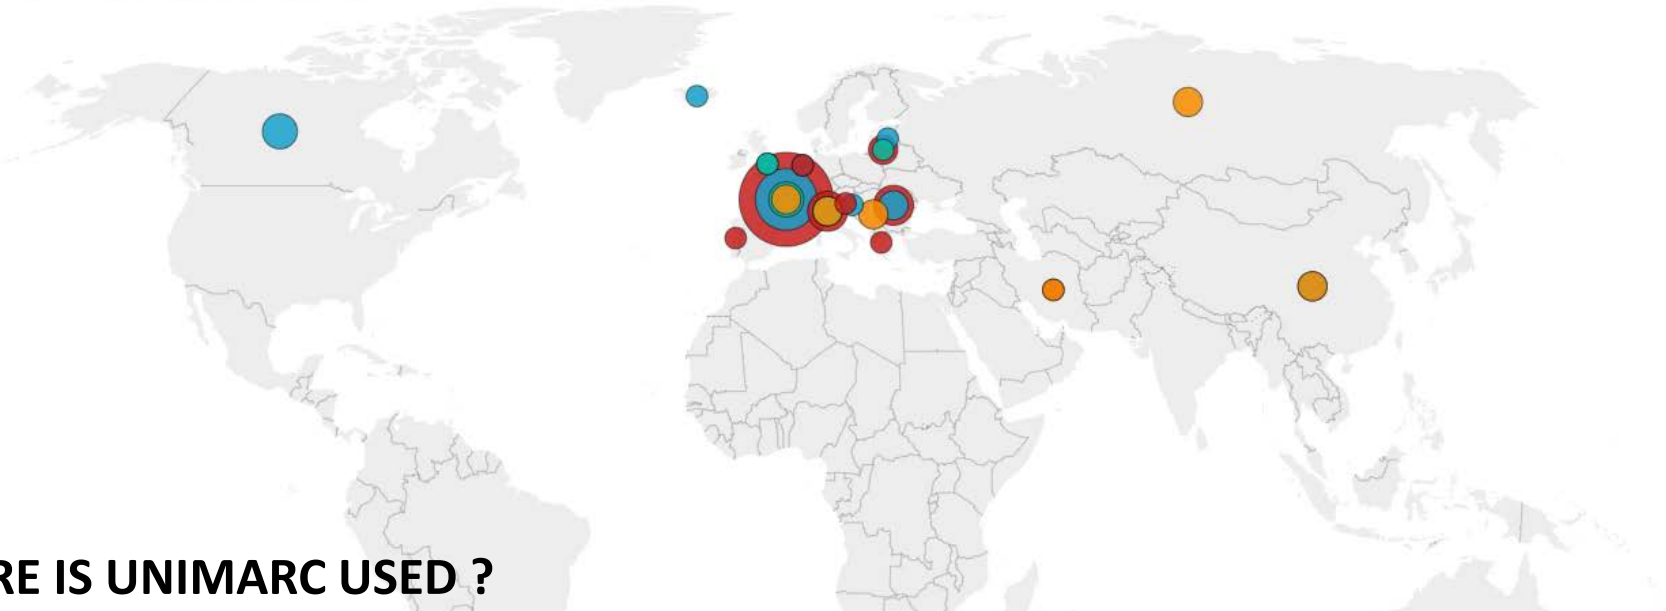

Geographical distribution of cataloguing/encoding formats

Other MARC formats Other standard UNIMARC UNIMARC-based

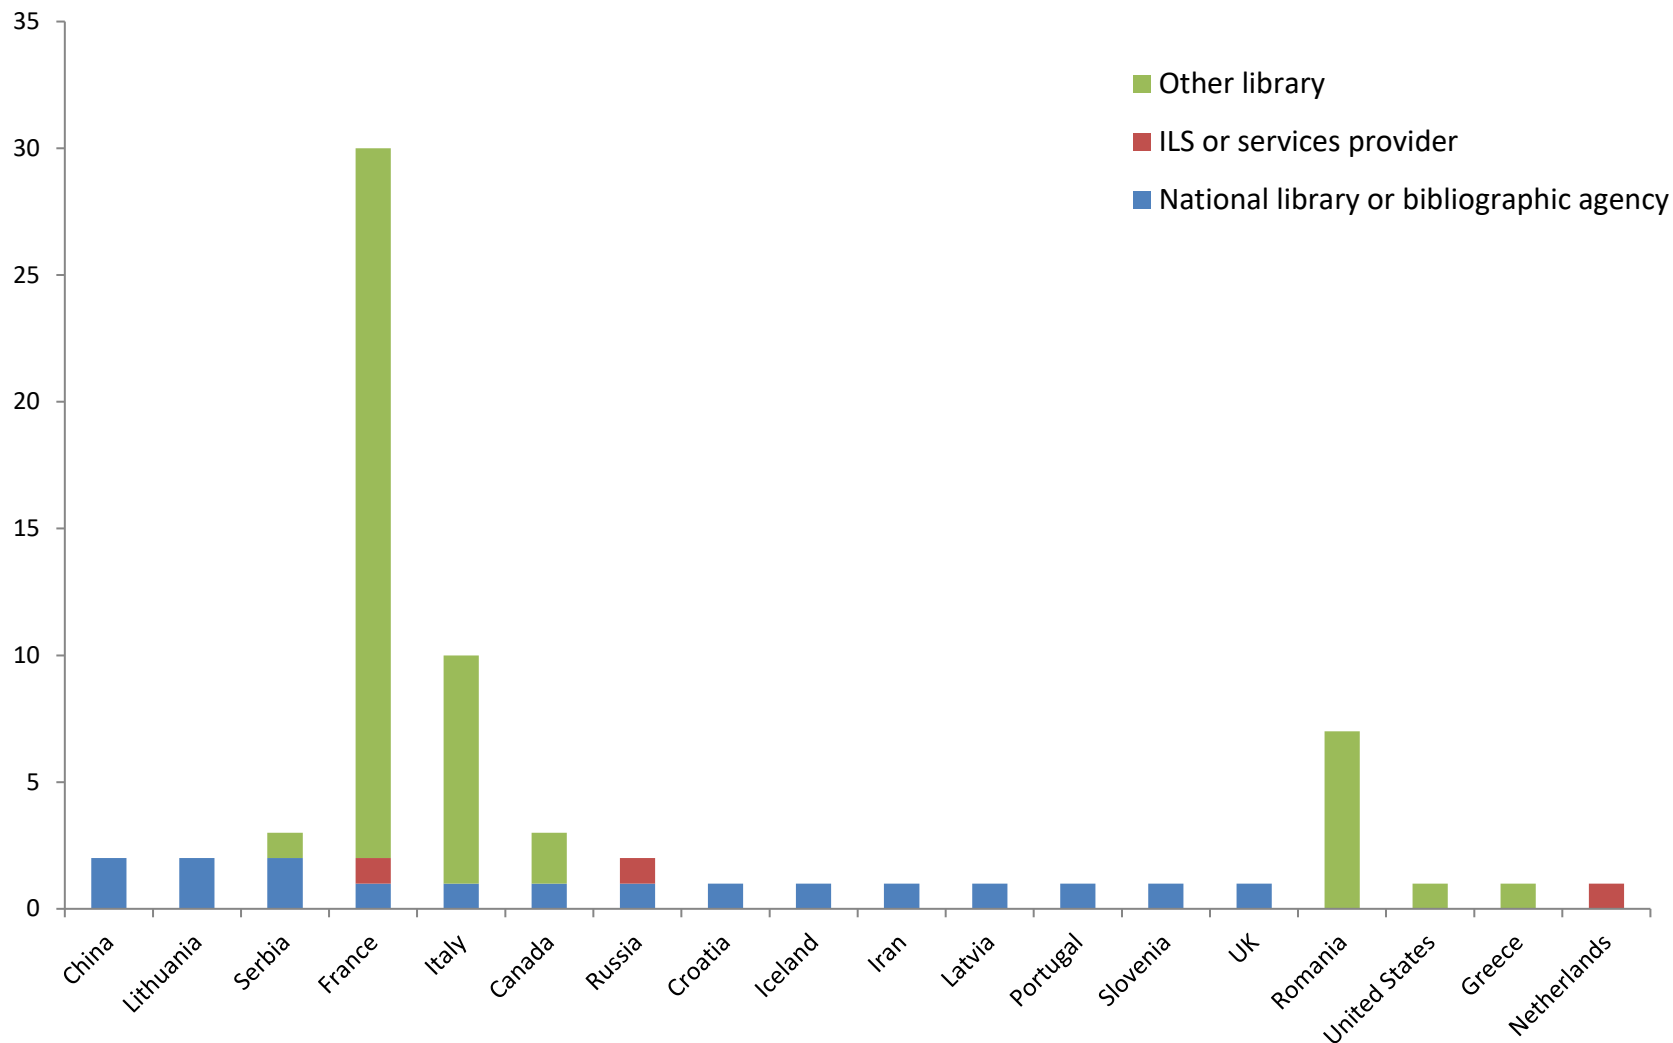

Geographical distribution of exchange formats

Other MARC formats Other standards UNIMARC UNIMARC based

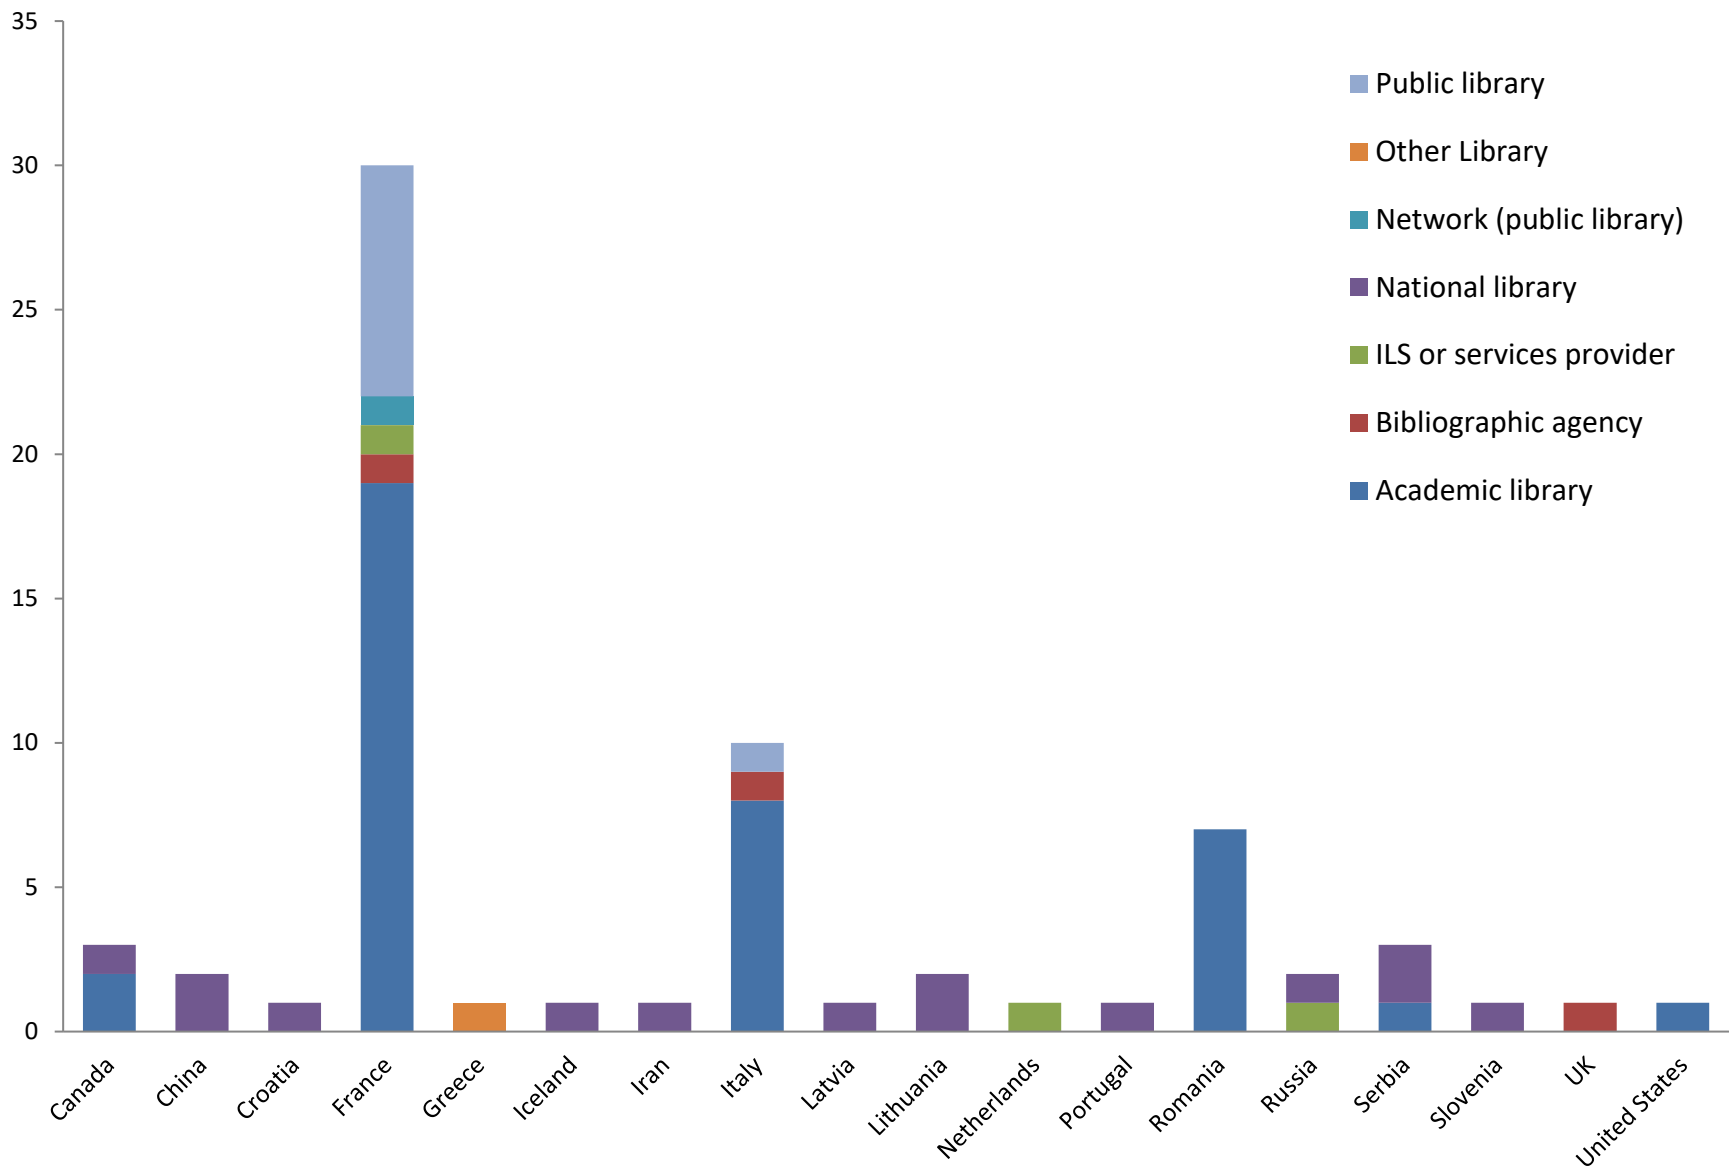

WHERE IS UNIMARC USED ?

GEOGRAPHICAL DISTRIBUTION OF CATALOGUING/EXCHANGE FORMATS

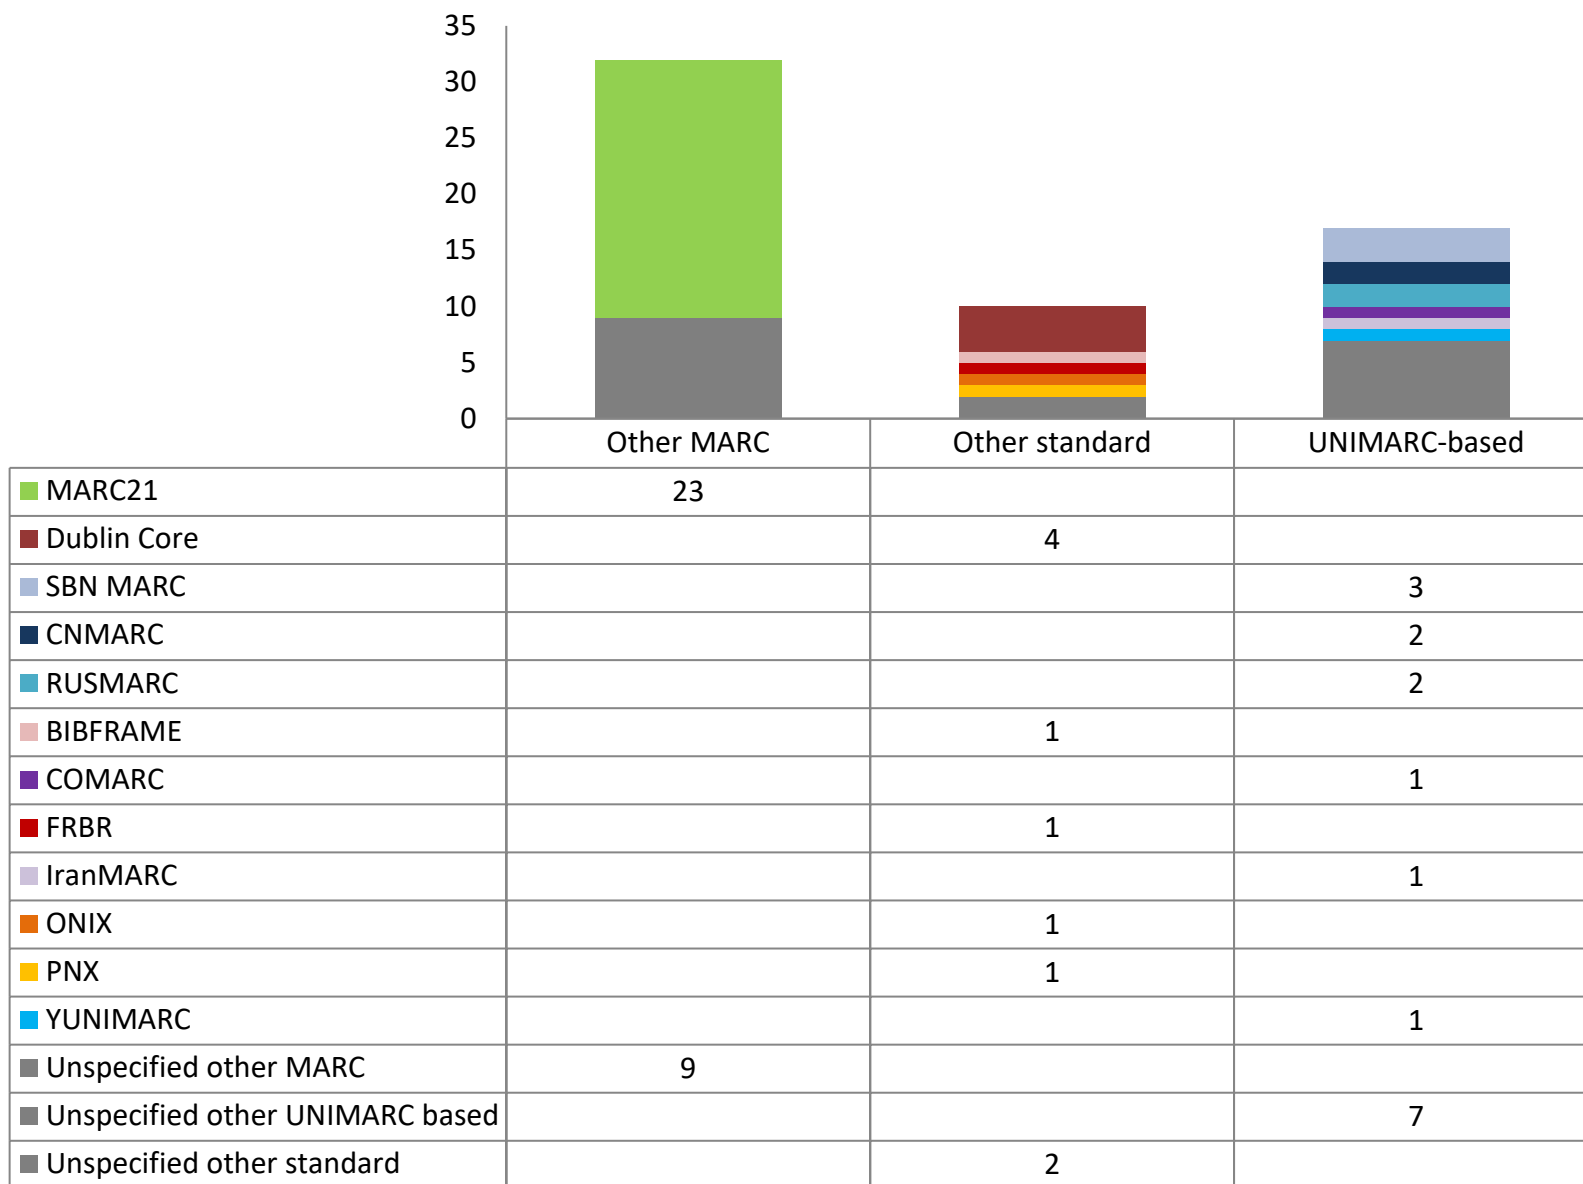

WHO FOLLOWS THE PUC'S ACTIVITIES ?
TYPE OF RESPONDENT BY COUNTRY

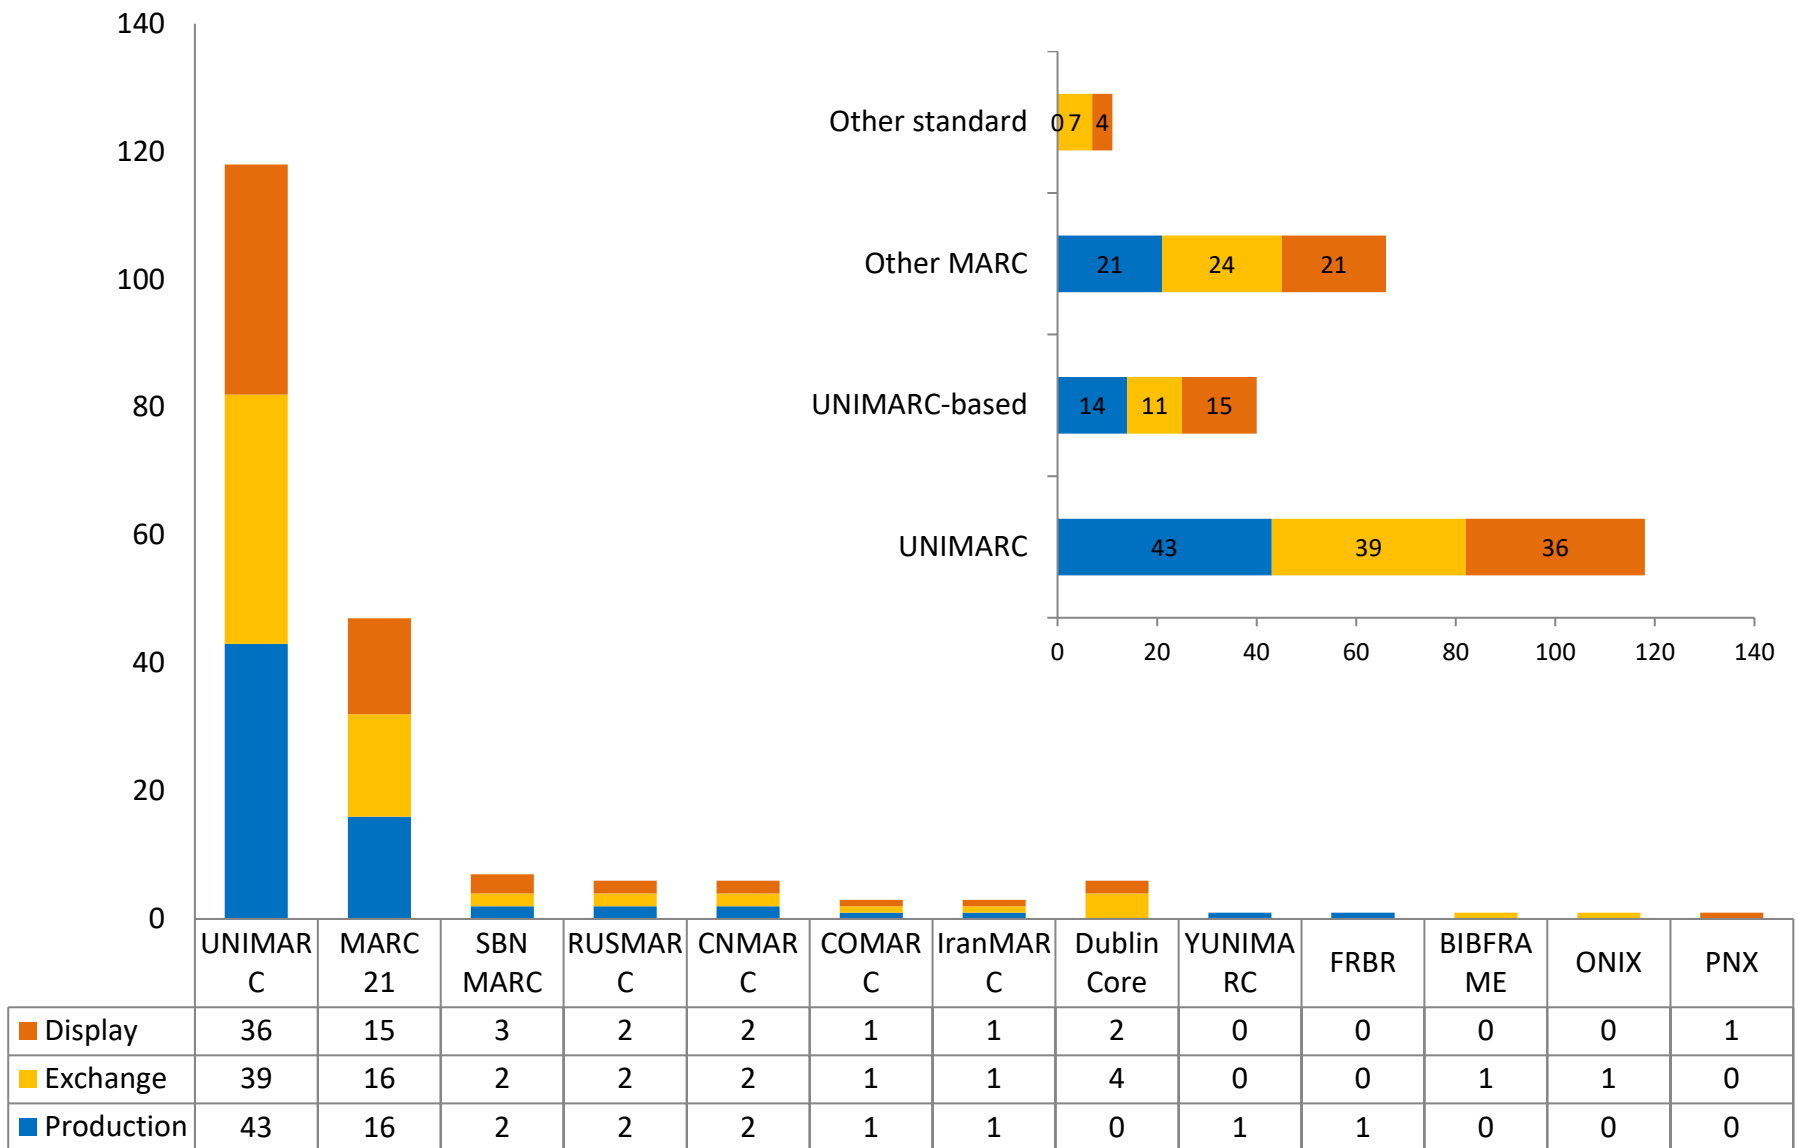

WHO FOLLOWS THE PUC'S ACTIVITIES ?
TYPE OF RESPONDENT BY COUNTRY

2. UNIMARC AND ITS USES

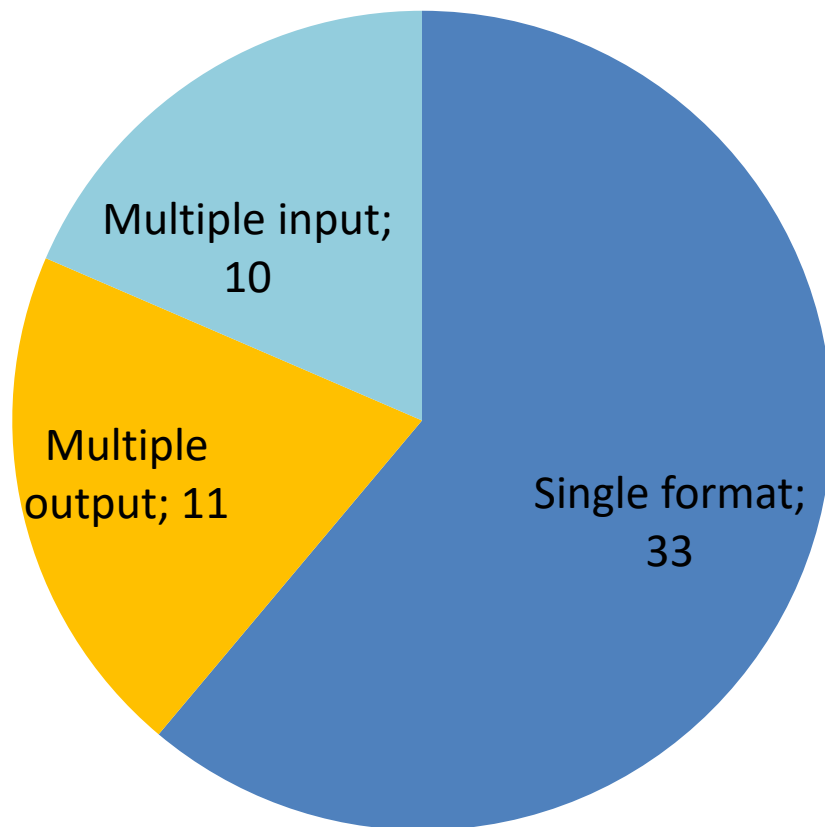

UNIMARC IN THE FORMAT ECOSYSTEM : OTHER FORMATS CITED BY RESPONDENTS

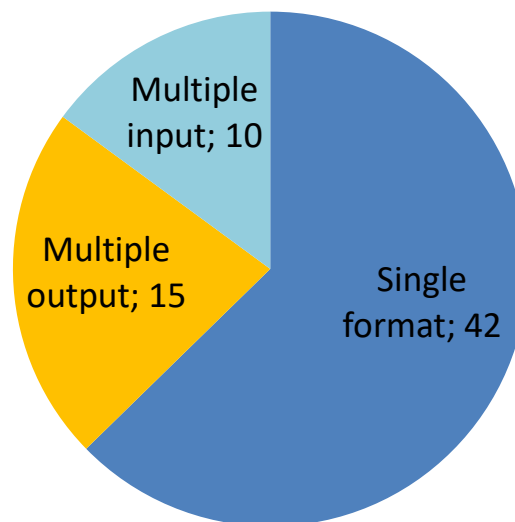

UNIMARC IN ITS ECOSYSTEM : FORMATS AND THEIR CURRENT USE IN THE SURVEY RESPONSES

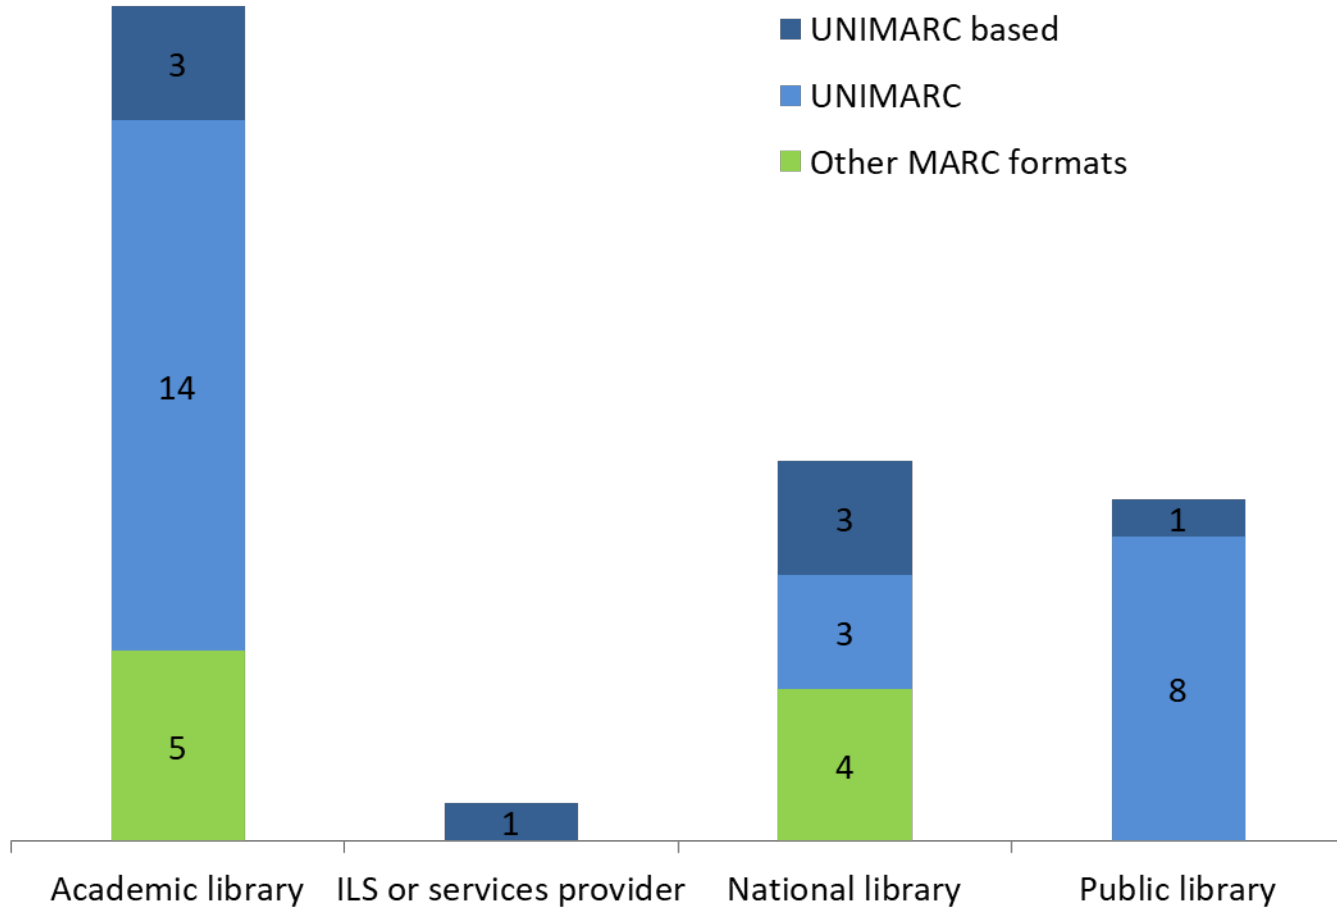

For systems using UNIMARC or a UNIMARC-based format for data encoding

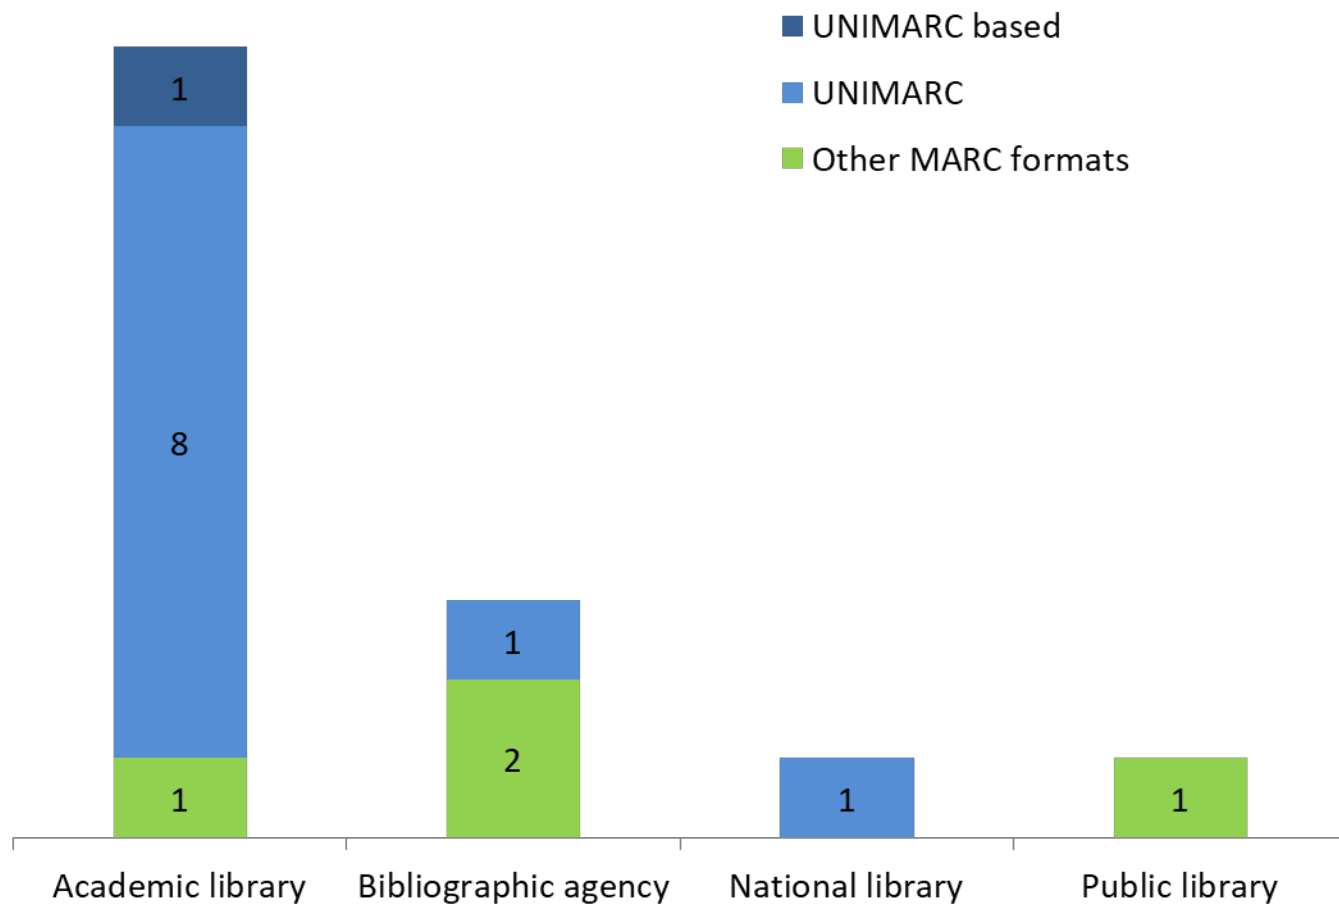

For all respondents

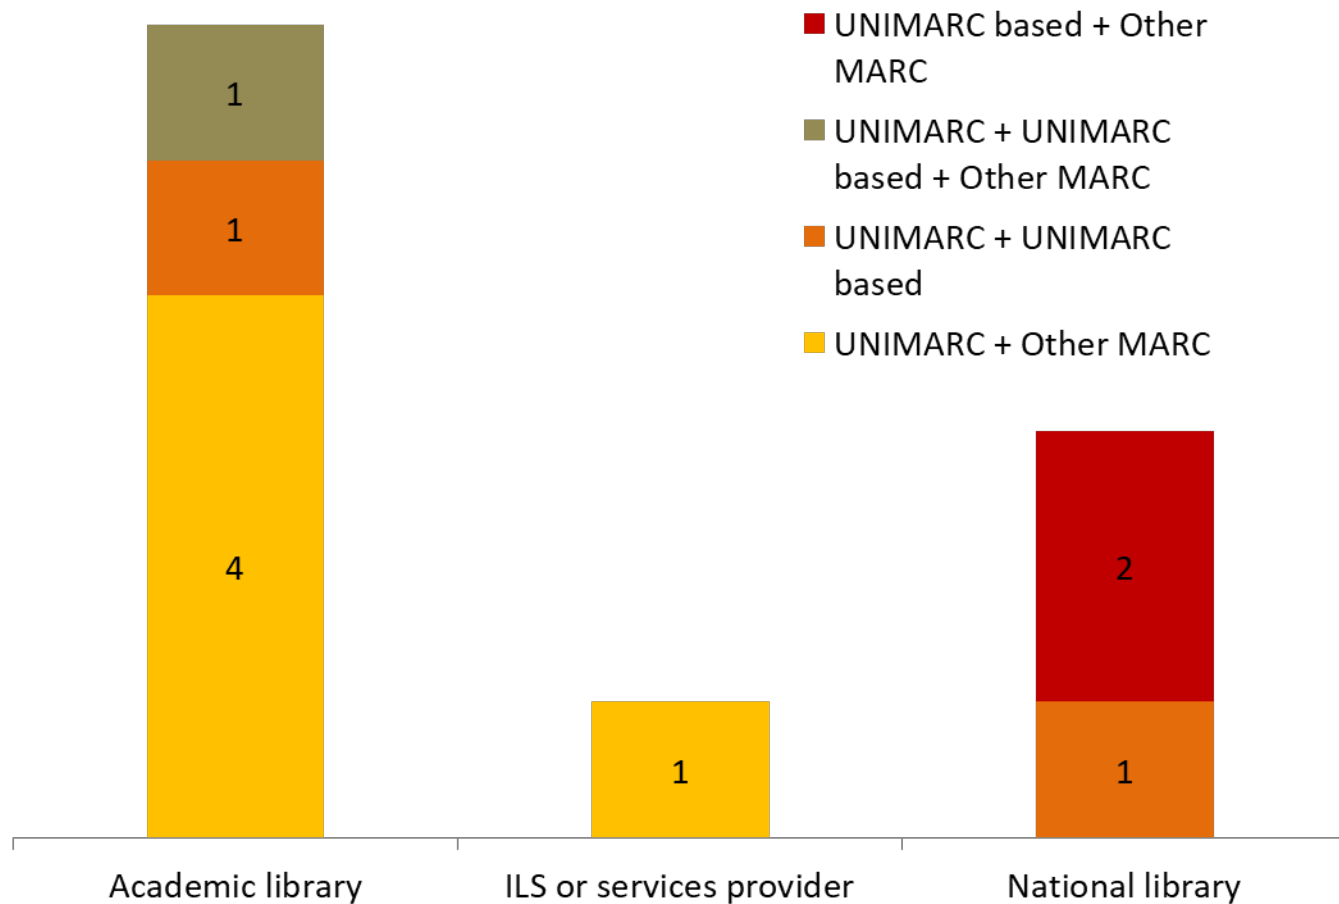

FORMAT USE PROFILES

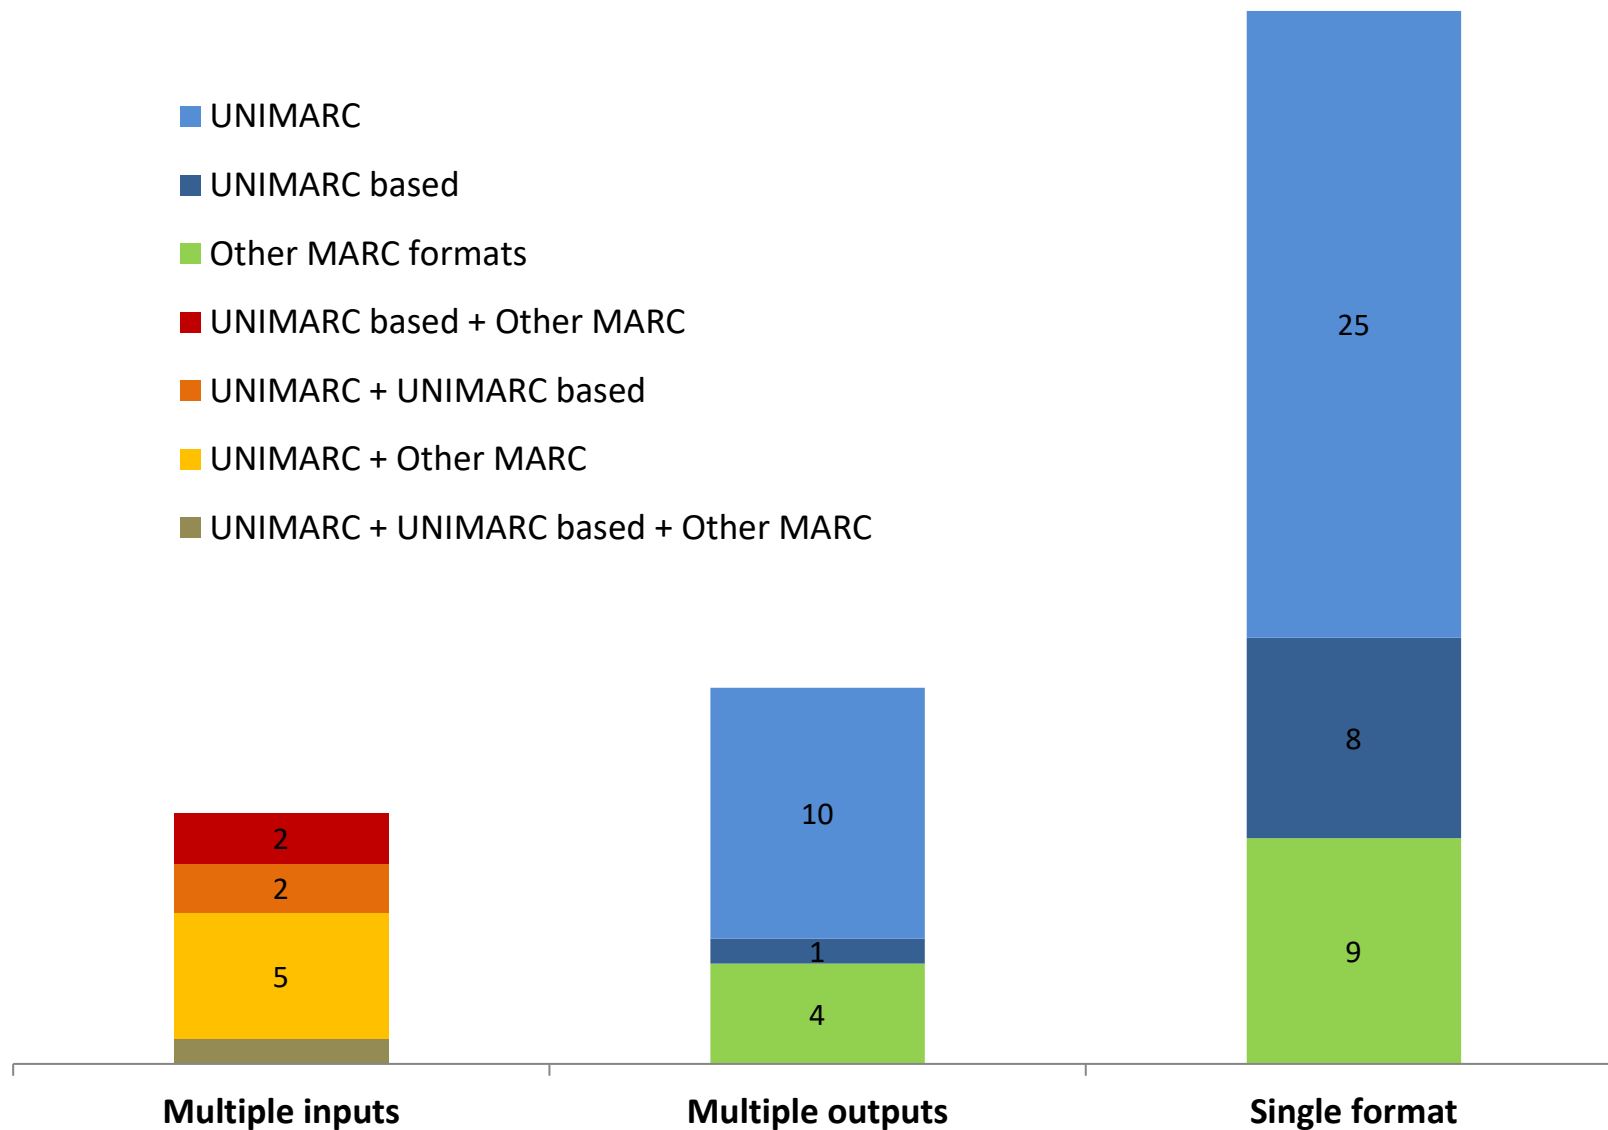

FORMAT USE PROFILES : PROFILE 1 – SINGLE FORMAT

FORMAT USE PROFILES : PROFILE 2 – MULTIPLE OUTPUT

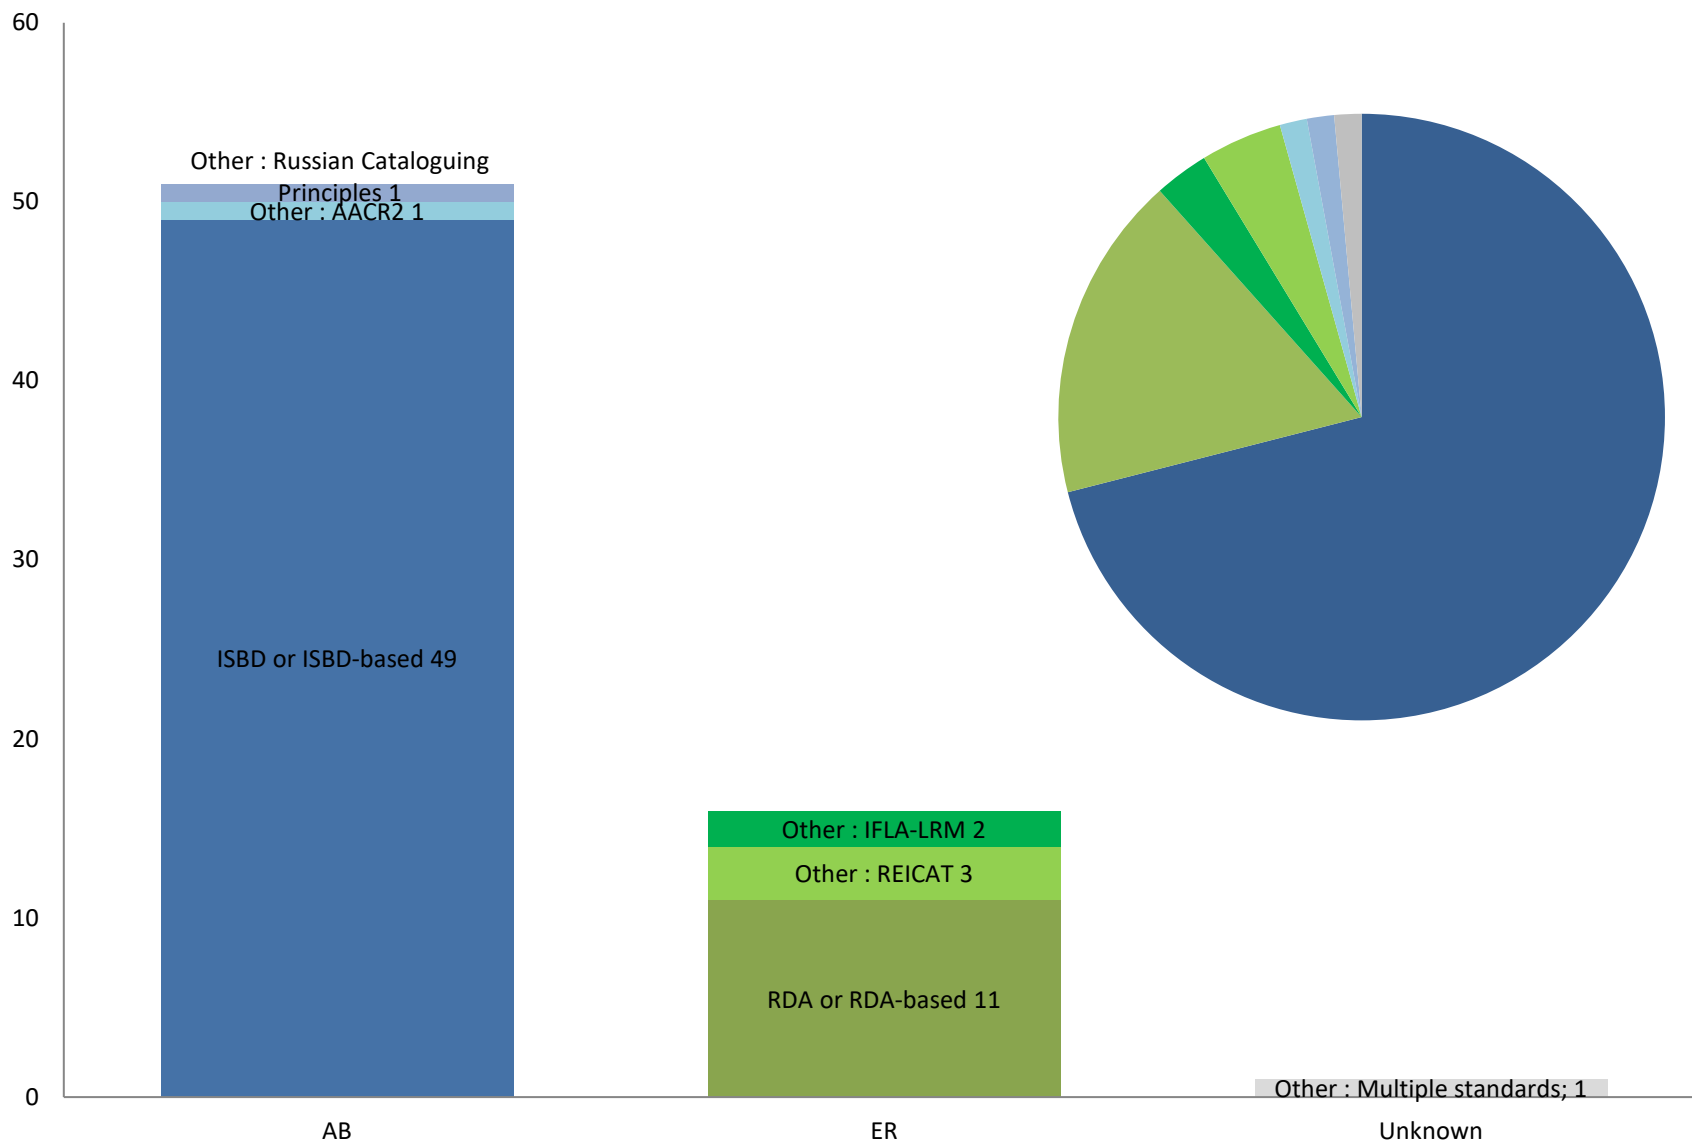

FORMAT USE PROFILES : PROFILE 3 – MULTIPLE INPUT

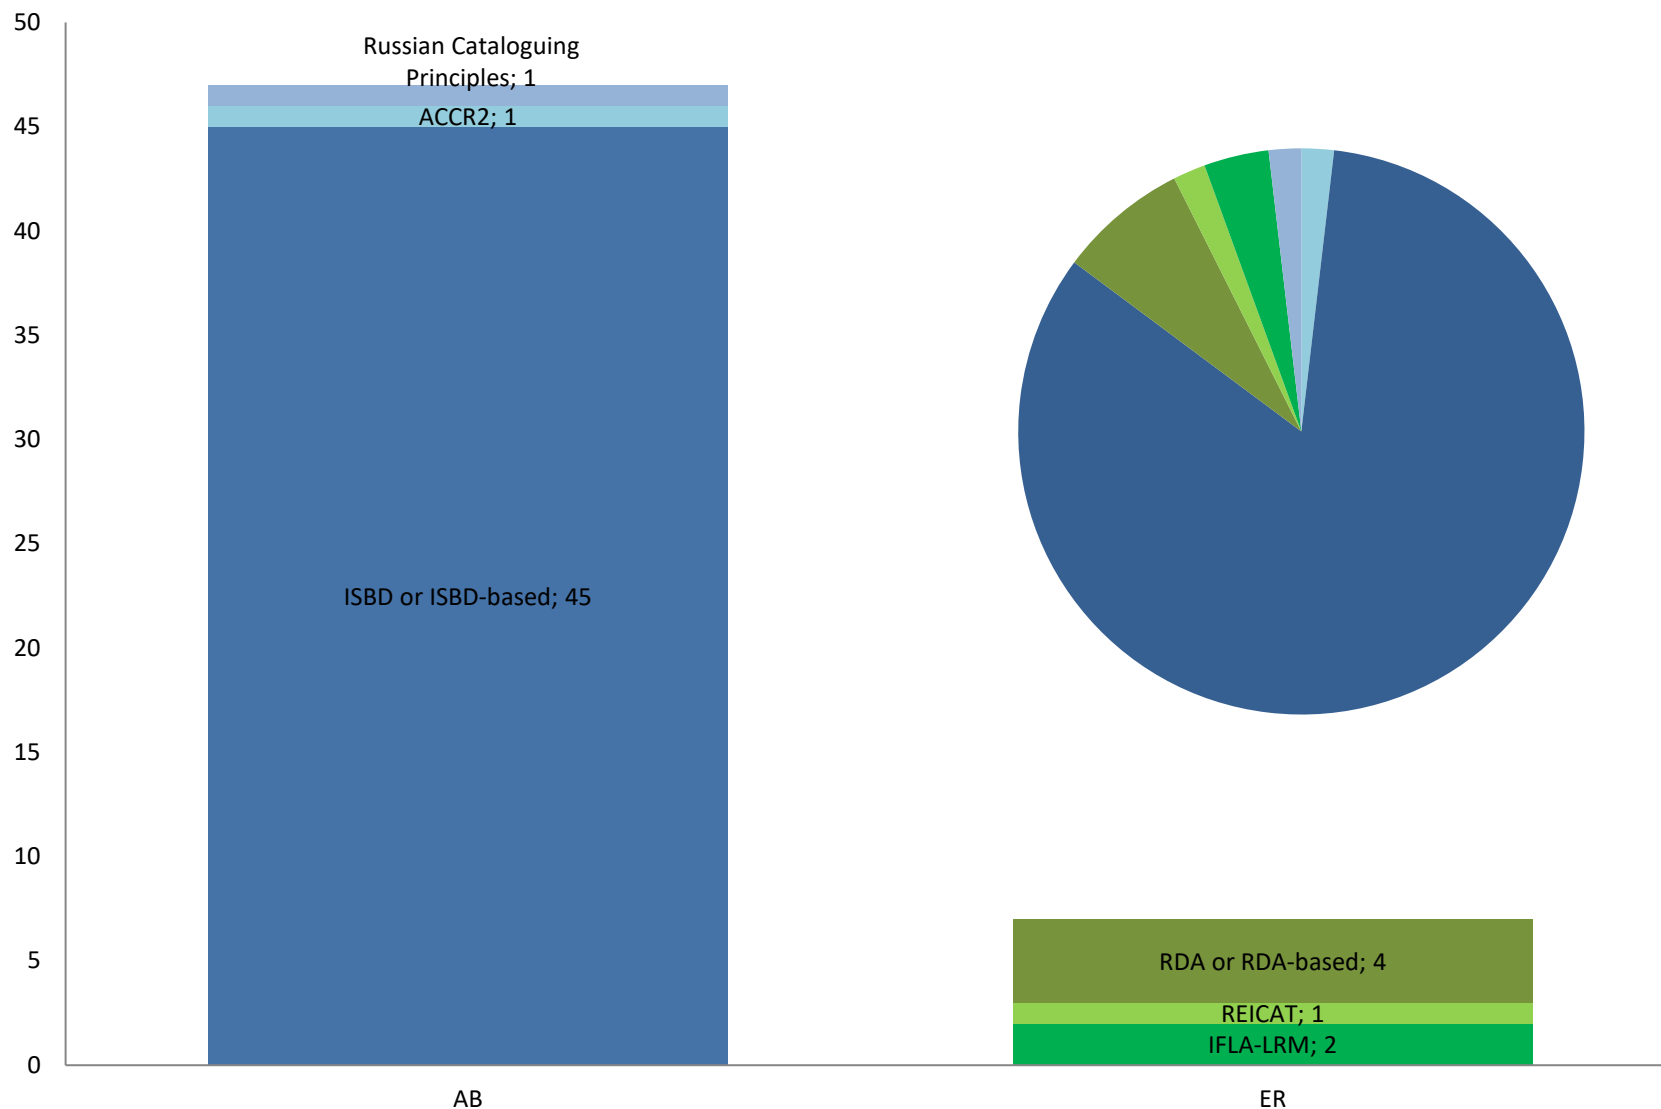

FORMAT USE PROFILES :
FORMAT COMBINATION STRATEGY BY ENCODING FORMAT(S)

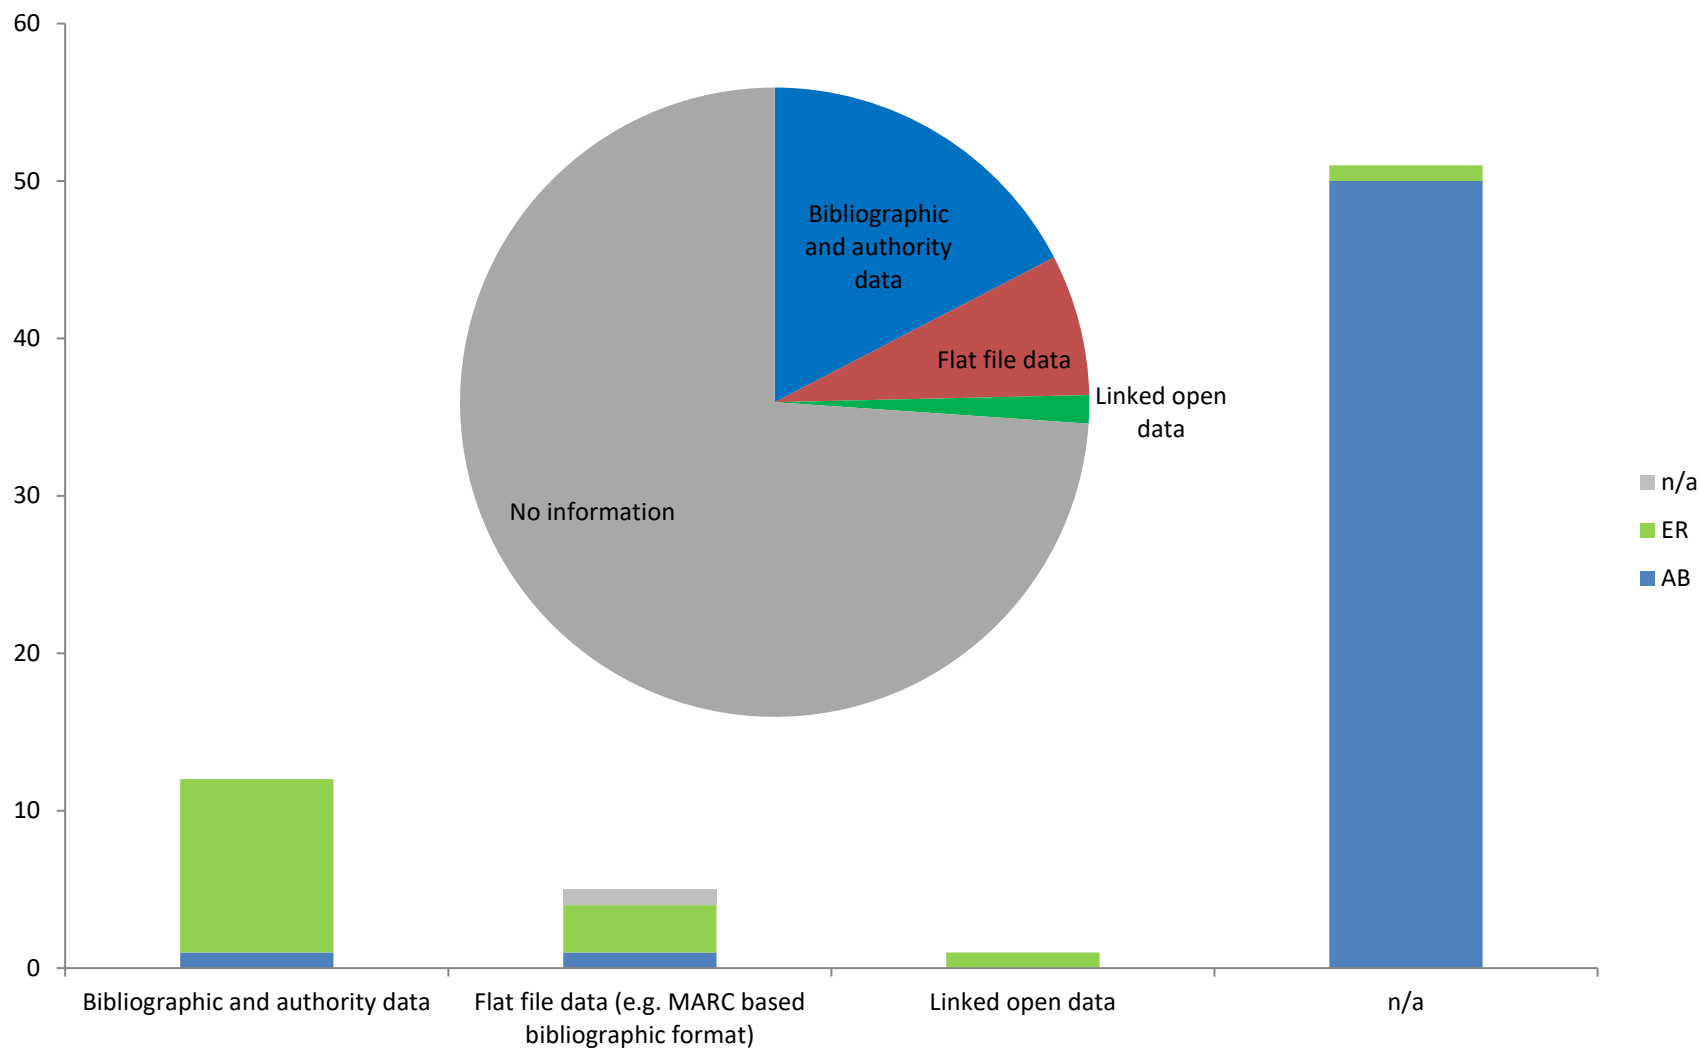

3. UNIMARC USERS AND THE NEW STANDARDS

CONTENT STANDARDS USED BY UNIMARC OR UNIMARC-BASED USERS FOR PRODUCTION

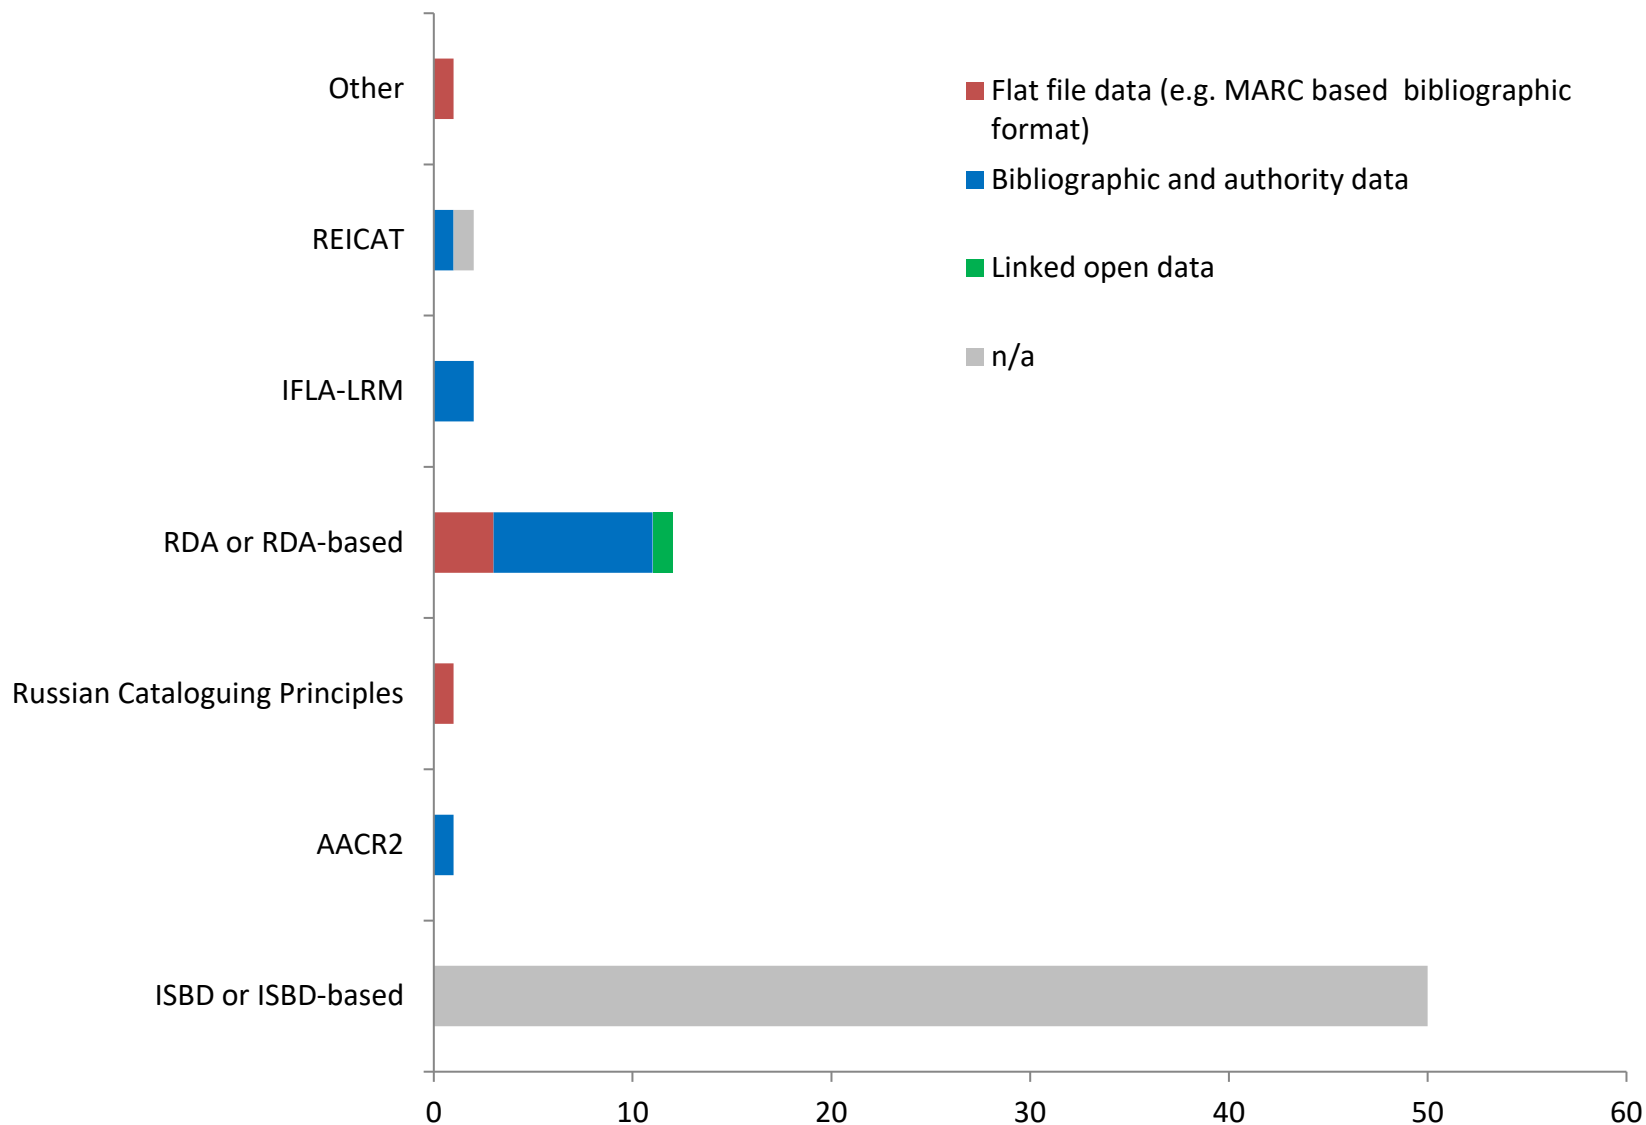

CONTENT STANDARDS USED BY UNIMARC OR UNIMARC-BASED USERS FOR PRODUCTION

IMPLEMENTING CONTENT STANDARDS

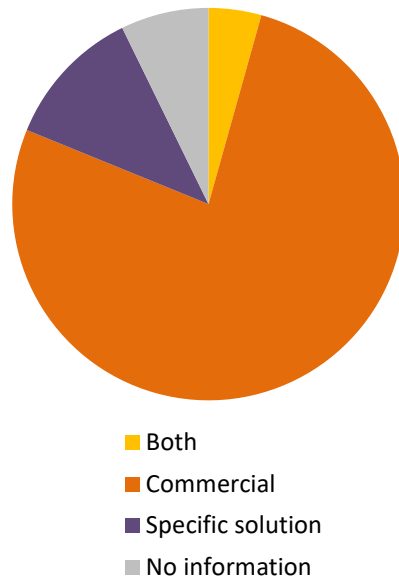

CURRENT MAIN STRATEGY OVERALL AND BY CONTENT STANDARD TYPE

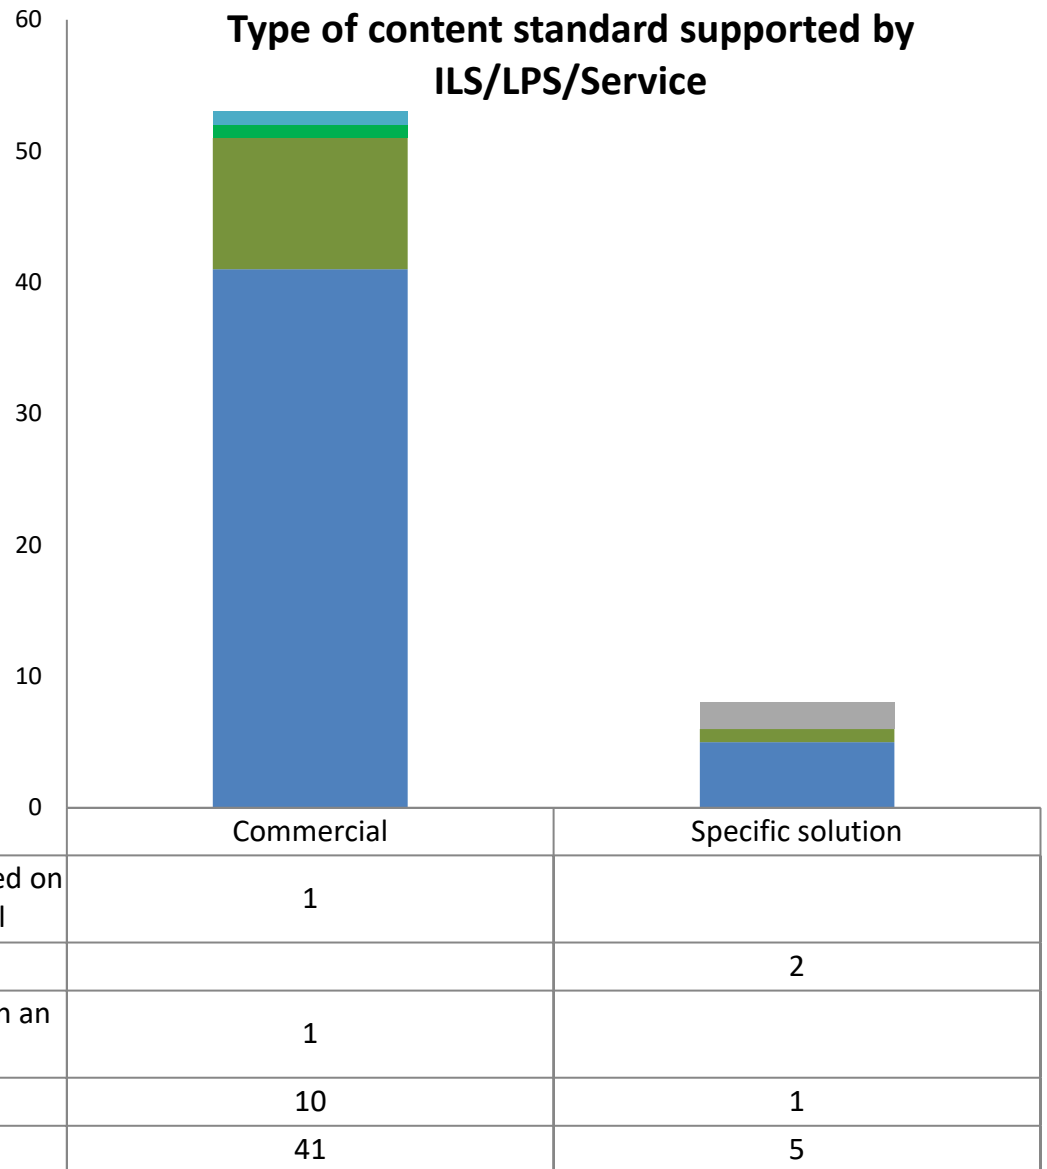

IMPLEMENTING CONTENT STANDARDS

CURRENT MAIN STRATEGY BY SPECIFIC CONTENT STANDARD

Type of ILS/LPS/service used by respondents

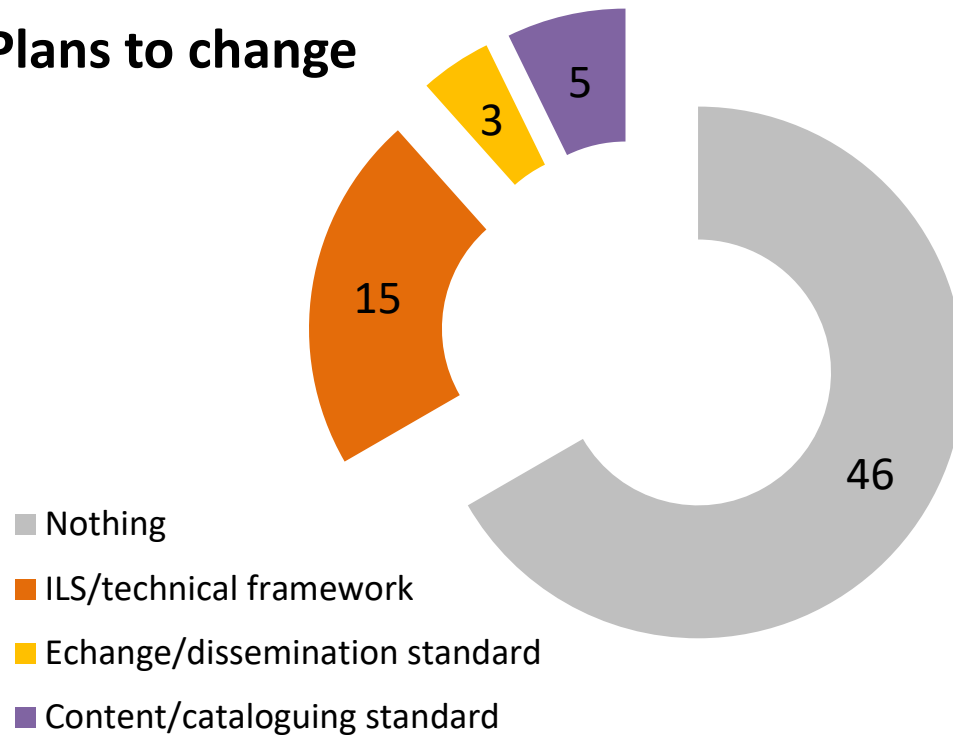

Type of content standard supported by ILS/LPS/Service

IMPLEMENTING CONTENT STANDARDS

CURRENT MAIN STRATEGY BY SPECIFIC CONTENT STANDARD

Plans to change

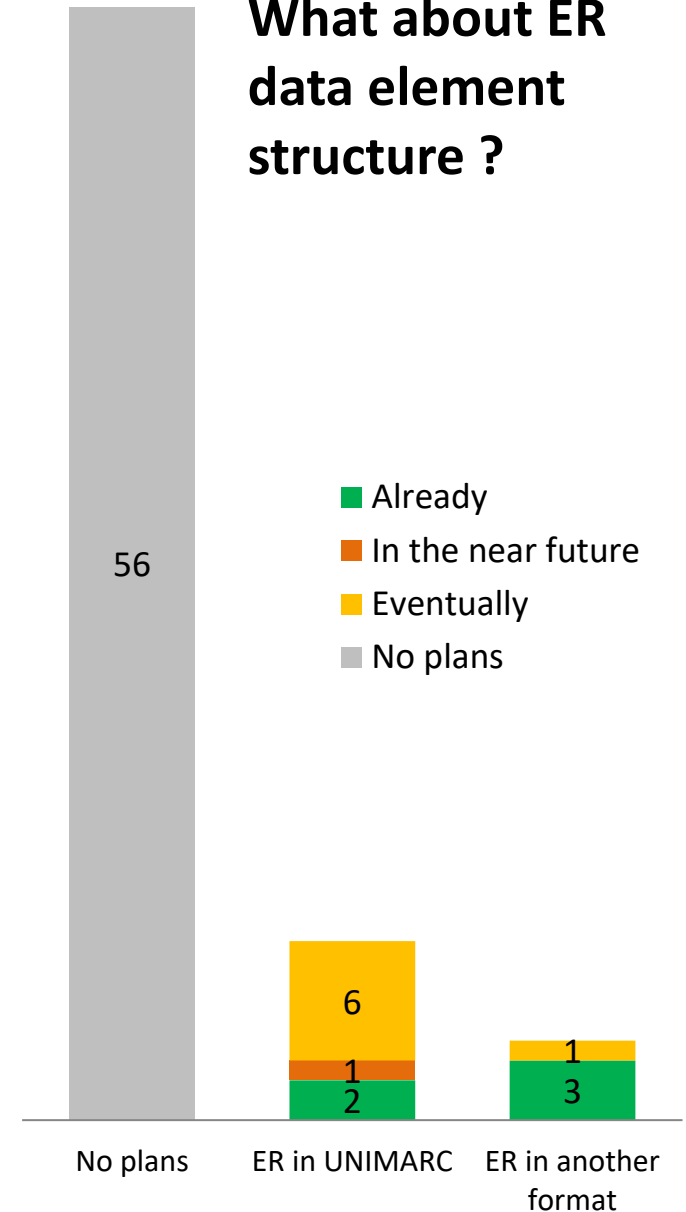

Reasons for changing

- Need to replace their ILS (technically obsolete, financial reasons, integration into a network) (7)
- Wish to adopt a new ER content standard or format (5)

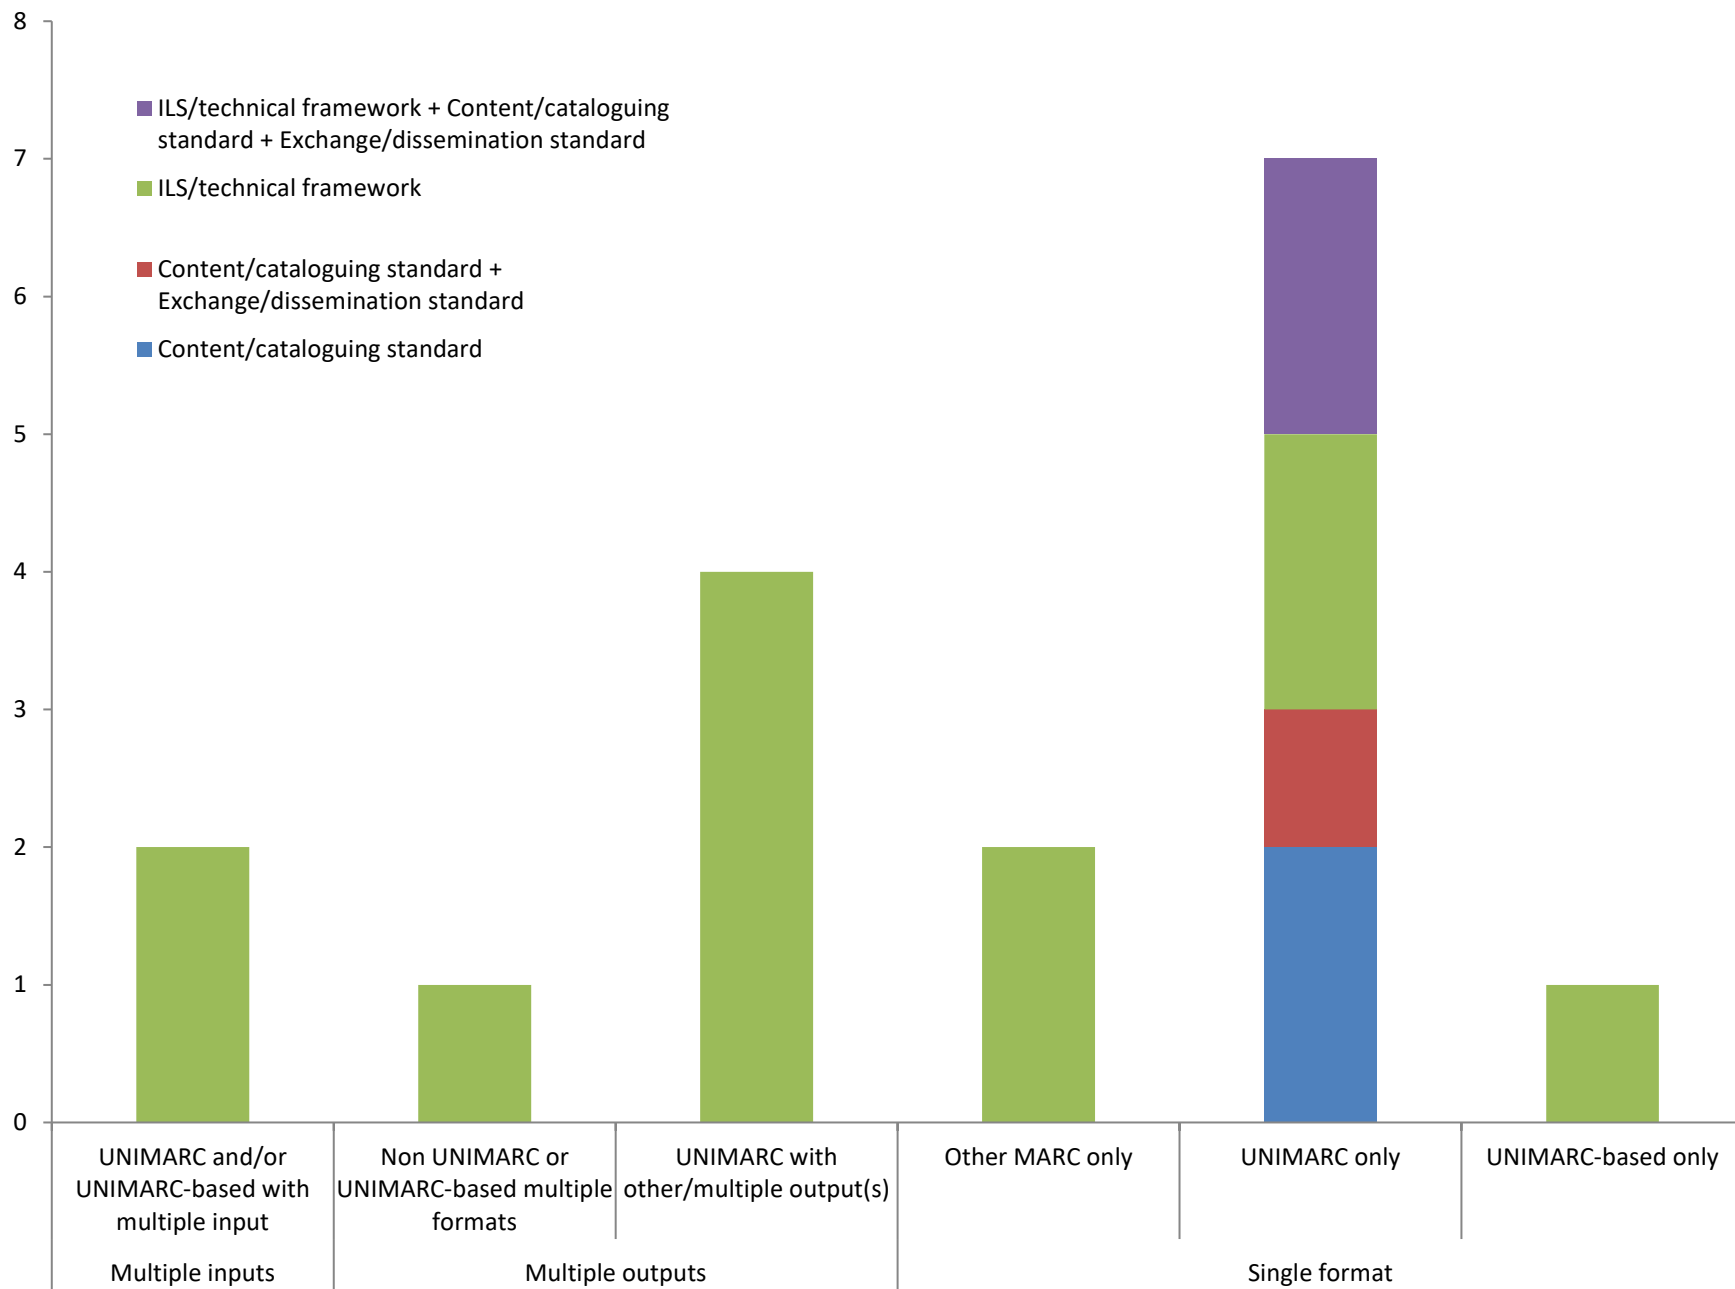

FUTURE PLANS OF USERS TO CHANGE OR NOT TO CHANGE, AND HOW ?

What about ER data element structure ?

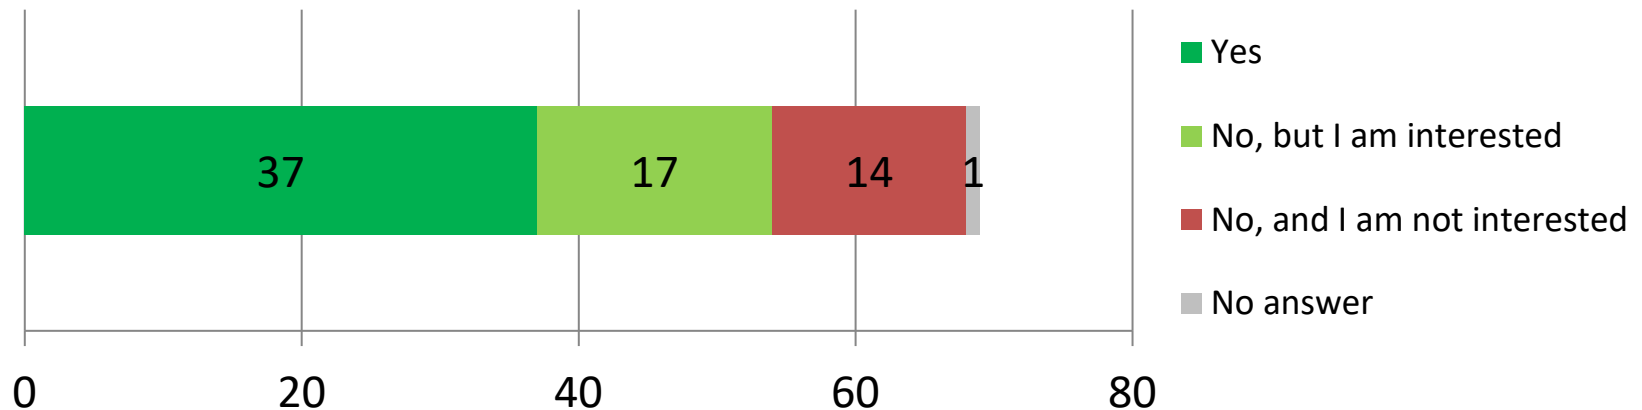

Planned changes by profile

Did you know that UNIMARC supports ER cataloguing ?

User expressed needs

- **Better and more user-friendly documentation** online (manuals, information about UNIMARC ER)
- **Tutorials**, especially on how to migrate from classic UNIMARC to UNIMARC ER
- **Compliance with RDA**, with frequent updates

USERS INFORMATION LEVELS AND NEEDS EXPRESSED

Thank you for your attention
