Issues	<i>- Forms and religions can be shared</i> Project interrupted due to the Covid crisis	<i>- God</i> <i>- Faith, Hope, Love</i> (Project interrupted due to the Covid crisis)
Showcasing the project	Edition of a book to enhance the value of the action	The cartonera <i>God</i> was exhibited in the school library and demonstrated to the school administration, teachers of Religion and Ethics, to others students and to the parents. The process of the cartonera <i>Faith, Hope, Love</i> was presented on Apr. 2, 2020. at the International Seminal Meeting on "The Evolving Concept of 'School Library' and Its Profession", organized by the IFLA SL Section and Roma Tre University, https://ecosliprof.blogspot.com/
Project assessment	<i>Under development</i>	<p>Cartonea <i>God</i>: It was a joy to experience how much inspired the teenagers were by the provided school library materials, how concentrated they worked on their own pages, how open, positively and critical they talked about God to their school librarian and how much respect they demonstrated to each other works putting the single pages to a common book. The ready Cartonera impressed not only themselves but made also their teachers and their parents proud of them.</p> <p>Cartonera <i>Faith, Hope, Love</i> keeps the strong bond between the German and the Russian Gymansiums spreading the hope of continuing the project as soon as the circumstances under corona would allow it. Especially the Russian side took the project as the opportunity for interreligious dialogue and setting free the creativity among children very seriously. Almost the whole school stuff was involved to discuss and to organize the project until it was unfortunately interrupted by the corona lock down.</p>
